# OUR SERVICES – DISMANTLING OF PLANTS

- There may come a time when an industry will no longer operate from a particular location. On the other hand, perhaps the site's equipment is so outdated that it is easier to start from the ground up than to try to renovate what is already in place. When either of these problems occurs, site decommissioning is the answer.
- Unlike demolition of a simple structure, industrial demolition services are explicitly designed to solve the unique problems that happen when an industry's equipment is involved. This can include a plant's and machinery's building and shed's equipments.
